# Glossary

Term	Definition
Account	Email and Password pair used to identify an account
Podcast	A video and audio recording of a specific course lecture
Favorite	A <b>podcast</b> that is specially marked as “Favorite” for easier access later
Transcript	A <b>podcast</b> transcribed to text
Query	A specific key term or phrase that is being searched by the user
Query history	Searches performed in the past tied to an <b>account</b>
Results	List of podcasts that contain the user <b>query</b> with noted timestamps and other relevant podcast information
Podcast Page	Represents the full view page of a single podcast if the user selects a result
Filters	Narrow search by podcast quarter, professor, department, and/or course number
Text-Blurb	Surrounding words spoken in a podcast around the given <b>query</b>

# USER STORIES

1)	As a UCSD student, I want to be able to search through UCSD podcasts for keywords, so that I can review specific concepts covered in lecture.
2)	As a UCSD student, I want to be able to search for podcasts in a specific department, so that I can view results from that specific department.
3)	As a UCSD student, I want to be able to search for podcasts in a specific course, so that I can view results from that specific course.
4)	As a UCSD student, I want to be able to search for podcasts from a specific professor, so that I can view results from that specific professor.
5)	As a UCSD student, I want to be able to search for podcasts in a specific quarter, so that I can view results from that quarter.
6)	As a UCSD student, I want to be able to view the podcast associated with my search query, so that I can listen to the podcast.
7)	As a UCSD student, I want to be able to quickly find a timestamp in a podcast, so that I can quickly view the podcast at a relevant time.
8)	As a UCSD student, I want to be able to look at my previously viewed podcasts, so that I can easily resume viewing what I was studying.

9)	As a UCSD student, I want to be able to look at my previous queries, so that I can easily resume searching through podcasts related to what I was studying.
10)	As a UCSD student, I want to be able to read the entire transcript of a lecture, so that I can catch up with the rest of the class in case I missed the lecture.
11)	As a UCSD student, I want to be able to read the entire highlighted transcript of a lecture, so that I can read important parts of the transcript.
12)	As a UCSD student, I want to be able to download the entire transcript of a lecture, so that I can save it locally for future reference.
13)	As a UCSD student, I want to be able to save important podcasts, so that I can easily view a podcast again in the future.
14)	As a UCSD student, I want to be able to remove irrelevant podcasts that I favorited, so that I can view the relevant favorited podcasts quickly.
15)	As a UCSD student, I want to be able to clear my query history, so that I can save relevant queries and clear a cluttered history.
16)	As a UCSD student, I want to be able to view text surrounding my query, so that I can contextualize the results of my query.
17)	As a UCSD student, I want to be able to make an account, so that I can store account information securely.
18)	As a UCSD student, I want to be able to log into my account, so that I can

	view and update account information.
19)	As a UCSD student, I want to be able to log out of my account, so that I can keep account information secure.
20)	As a UCSD student, I want to be able to change my password in case I forget it, so that I can log back into my account.
21)	As a UCSD student, I want to be able to change my password if it is not secure enough, so that I can update the security of my account.
